Creating Future

OUR STORY

Al Hamra was established in 1986 by Eng'r. Syed Naseem Akhtar in Sharjah with branch office in Dubai and actively exploring for further expansion in the region.

Al Hamra holds a valid First Category License from the Sharjah Municipality. The company is a reliable, reputed and respected name in the field of Engineering Consultant business. The acceptance and favor by our clients has been earned with the untiring efforts of Eng'r. Naseem Akhtar over a period of 20 years. It employs well-experienced architects and engineers aside from its office staff, with well-equipped offices

ENG. SYED NASEEM AKHTAR

CHAIRMAN OF BOARD OF DIRECTORS

CHAIRMAN'S MESSAGE

Dear Customers,

I would like to thank each one of you for the trust and respect that I have gained over the years my professional career. If it wasn't because of you, I would not have been able to create Al Hamra Engineering Consultant.

Our Company's backbone relies on my team. I have always been blessed with two very important things in my business career namely my dedicated, professional team and my clientele.

Our Mission and Vision only came into the picture after my team gave me the courage to tell the market that Al Hamra Engineering Consultants can do wonders and can take care of any project because, we have never practiced to say 'no'

Syed Nasim Akhtar
Chairman

MR. SYED ALI AKHTAR

MANAGING DIRECTORS

MD' MESSAGE

Sense of responsibility, commitment and consultant's professional ethics, are the basis of our development within 31 years.

Our rapid growth over the years confirms this matter, and expresses satisfaction of our employers and considering their needs and interest in our services.

In order to meet the needs of employers, we have considered development, both in terms of internal and organizational, and from the perspective of engineering services. Depending on the time, with appropriate changes in the managerial structure of company, independence have provided to professional divisions in line with project and employers needs to provide new services.

Development is a permanent process in our company, and we will continue to grow together with our employers, local and international partners and societies. We will lead our efforts to gain more satisfaction of our employers, with the best engineering skills, advanced technical knowledge, capable staff, positive attitude and eagerness to accept challenges, and despite all the honors, will continue to endeavor for a better future.

Syed Ali Akhtar
Managing Director

AL HAMRA
ENGINEERING CONSULTANT

We have built our reputation on our client
focus and hands on approach

Introduction

Al Hamra Engineering Consultants Company holds a Valid first Category License.

Al Hamra is a reliable and a reputed name in the Engineering Consultants industry. the acceptance and favour by our Clients has been earned with the untiring efforts of our Chairman, Syed Naseem Akhtar, over a period of years. Mr. Naseem is very well known among all the Engineering circles for his professional approach.

Al Hamra has Creative Architects and Competent Engineers, whose dedication has been reckoned by the success of the firm. Along with quality, Al Hamra also holds quantity of work in the marketplace.

Our Projects include high rise buildings in all the commercial areas of the UAE and a number of beautifully designed villas in almost all the residential areas of the UAE. mosque, hospitals, warehouses, schools, labour accomodations and showrooms are also some of the main jobs that Al Hamra Engineering Consultant has completed.

We respect and value our clients, which is why even after holding a good position in the market, we accept to serve them in their minor projects. Our specific design cater to the needs of the developers group. that is why our clientele also includes most of the reputed developers.

So when you look for quality consultancy and Construction services, look up for Al Hamra Engineering Consultants Company.

Professional Services

After a careful assessment of our Clients' requirements, we provide expert services across the entire lifecycle of a project. Starting from development of the brief and a budget, services cover master/site planning, architectural and engineering design. This is followed by procurement and cost management services and later services during construction and commissioning phases
